Passionate Web Developer with **2 years** of software development experience. Proven implementation experience on projects of all sizes, working **independently** or with a **team**. **Perfectionist** with an **attention to detail**, resulting in high-quality and meticulously prepared final deliverables. **Versatile** and proficient in a variety of web technologies. Always **willing to learn** and embrace new technologies and methodologies that ensure **innovation** and **continuous improvement** in development practices.

Employment History

Full Stack Web Developer at D4T Technology, San Luis Potosí

01/2024 — Present

- Supported the project's planning and roadmap execution, providing insights on frontend architecture and collaborating with the team to resolve potential development challenges.
- Enhanced user satisfaction and engagement by developing a user-friendly and responsive interface for the web application, focusing on frontend performance and optimizing it for various devices and platforms.
- Played a key role in delivering a scalable and resilient application by collaborating in the design of the microservice architecture, with a primary focus on the frontend integration and ensuring seamless communication between services.

Main Technologies

Nuxt   Tailwind CSS   TypeScript   Laravel   Node.js

Full Stack Web Developer at Fyware, San Luis Potosí

06/2022 — 06/2023

- Facilitated data exchange and integration by designing, implementing, and consuming REST APIs, resulting in more efficient communication between front-end and back-end systems.
- Accelerated project completion by collaborating with multiple technology stacks, infrastructures, and cross-functional teams to develop comprehensive web applications.
- Contributed to the successful launch and maintenance of multiple web applications by planning, developing, testing, deploying, and maintaining features, ensuring reliability and user satisfaction.

Main Technologies

Vue.js   Express.js   MongoDB   .NET   Python

Intern at UASLP, San Luis Potosí

12/2021 — 06/2022

- Contributed to the development of internal web-based systems, enhancing functionality and user experience by utilizing PHP, HTML, JavaScript, and CSS.
- Provided maintenance and support for corporate workstations, resolving technical issues promptly to minimize downtime and ensure smooth operation for employees.
